The Unofficial Quick-Start Guide:
From Download to Deep Bible Study

Version 1.0

Last Revised: 07/07/2025

Author: Matt Robertson

Purpose

This guide will help new users of Logos Bible Software to:

- **Download** Logos Bible Software from the web.
- **Install** the software onto the desktop.
- **Log in** to their Logos account.
- **Begin** quickly studying the Bible.

Before You Begin

- *This guide is designed for desktop use **only.***
- *Check system requirements before installing.*
- *Library packages are not included with software. Ten free resources can be found here.*
- *Email customerservice@logos.com for additional assistance.*

## Setup & Download Logos Bible Software

Step 1: Create account

1. Visit logos.com in your web browser of choice.
2. On the upper right hand corner, click **Sign In**.
3. At the next screen, click **Create Account**.
4. Input email address.
5. Logos will send a verification email to the email address you provided. Click on link to verify email *(See image below)*.
6. Create password for Logos account.

Verification Email

Step 2: Download installer
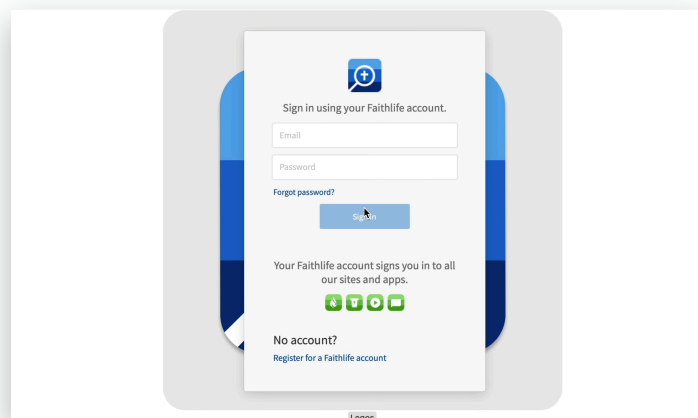

7. Visit https://www.logos.com/get-started.

8. Click **Download** *(computer type will show in parentheses)*

Download button (for M-series Mac)

Step 3: Install & log in

9. Once downloaded, open software file *(If on a PC, file will end in .exe; if Mac, will end in .dmg)*.

10. Drag Logos icon into Applications folder.

11. Click on Logos icon to start software.

12. When prompted, log into Logos account and begin software installation.

# Your First Logos Bible Study: Basic Bible Study Workflow

1. Navigate to *Guides/Workflows* on left sidebar.

2. Under Workflows, click on *Basic Bible Study*.

3. Input Scripture passage you wish to study, either as full text (John 3:16) or shortened (rom 8 28-29).

4. Follow the workflow's prompts to study the passage!

Suggested Resources
